| ZX-100X | 100 | 33 | 4.3 | 520 | 550 | 600 | 950 |
| ZX-120X | 120 | 40 | 5.2 | 550 | 500 | 560 | 1000 |
| ZX-150X | 150 | 50 | 7.8 | 680 | 500 | 560 | 1000 |

用途特点

ZX系列制冰机采用立方体设计与弧形门(或不锈钢门),外观漂亮。本系列制冰机采用当今制冰机先进技术,专业技术,专业生产,在同类产品中质量稳定,性能优越。采用旋转挤压制冰方式,省去了除冰过程,省时节能;采用独特的行腔式蒸发器,制冰速度快,产冰效率高。不定型的小颗粒冰,能渗入狭窄的缝隙,温度均匀,快速冷却,尤其适合实验操作保存样本之用。

Characteristics of uses

ZX series of the Snowflake Ice Machine adopts the cubic design and the arc gate (or the stainless steel door), and the appearance is beautiful. This series of Snowflake Ice Machine adopt advanced technology, professional technology and professional production. Therefore, in the same kind of products, the quality of Zhixin's Snowflake Ice Machine is stable and the performance is superior. It uses rotary extrusion to make ice, so it saves the time used for the deicing process; it uses a unique cavity type evaporator, so that the speed of ice making is fast and the efficiency of ice production is high. Unshaped small particles of ice can infiltrate into a narrow gap. The temperature is uniform, the speed of cooling is fast, and it is especially suitable for the preservation of samples for experimental operation.

ZX系列自动优点

- 独特的微电脑控制,全自动控制进水→制冰→粉碎→落冰
- 全自动连续制冰,使用方便
- 不锈钢外壳,防腐耐用,简洁大方
- 节水:没有除冰过程,无水损耗,制冰过程无残水
- 电压过载保护装置:缺水和冰满自动停机功能
- 停电、断水自动记忆恢复功能:制冰机工作时突然停电断水,恢复水电后从停电、断水时状态开始自动继续运转

ZX series automatic advantages

- Unique microcomputer control, fully automatic control: water inflowing, ice making, smashing, settling
- Fully automatic and continuous ice making, easy to use
- Using stainless steel shell, anticorrosion and durable, simple and generous
- Water-saving: no water removal process, no water loss, no residual water in the process of ice making
- Voltage overload protection device: the condition of water shortage and ice full will automatically stop
- Power cut, water automatic memory recovery function: when the Snowflake Ice Machine works, the power is suddenly cut off or water is broken, and the state starts to operate automatically when the power is stopped and water is broken
